

External process for managing consignments subject to Trading Standards holds where goods are refused release to the free market

Background:

Trading Standards carries out assessments and examinations at UK border points in order to provide a high level of consumer protection from unsafe and non-compliant goods. Where goods have been identified as posing a serious risk, they may be refused release onto the free market.

In order to achieve consistency in how to manage these consignments and to reduce the unnecessary administrative burden on both Trading Standards and the National Clearance Hub (NCH) the following document has been agreed between Trading Standards and the NCH.

TRADING STANDARDS REFUSAL: [DESTIN8 LOCATIONS](#)

TRADING STANDARDS REFUSAL: [CNS LOCATIONS](#)

TRADING STANDARDS REFUSAL: [CCS-UK LOCATIONS](#)

TRADING STANDARDS REFUSAL: [LONDON GATEWAY PORT only - CNS](#)

TRADING STANDARDS REFUSAL: [CNS AIR ONLY](#)

TRADING STANDARDS REFUSAL: [MANAGING SPLIT/REFUSAL BEFORE CUSTOMS ENTRY IN CHIEF](#)

PORT INVENTORY - DESTIN8

- A. FULL LOAD DESTRUCTION
- B. PART LOAD RELEASE AND PART LOAD DESTRUCTION
- C. FULL LOAD RE-EXPORT
- D. PART LOAD RELEASE AND PART LOAD RE-EXPORT

DESTIN8 – FULL LOAD DESTRUCTION

1. **Trading Standards (TS)** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox. The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date)
 - c. Confirmation of Full or Partial refusal
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **National Clearance Hub (NCH)** asking for the UCN to be reset.
3. The **NCH** Shed team will reset UCN.
4. The **NCH** will advise the OPSS Borders Team via email when the UCN has been reset.
5. The OPSS Borders Team will advise **TS** that the UCN has been reset by the **NCH**.
6. **TS** will instruct the trader to complete a RRO (Removal Request Other) and to email their request to OPSS Borders Team (opss.borders@beis.gov.uk), and copy in **TS** as well.
7. The OPSS Borders Team will email the details of the RRO to **NCH**.
8. When the RRO is received, the **NCH** will action the request on Destin8.
9. The **NCH** will advise the OPSS Borders Team via email that the RRO has been approved.
10. The OPSS Borders Team will advise **TS** that the RRO has been approved.
11. When the destruction of the goods has been completed, **TS** will notify the OPSS Borders Team.
12. The OPSS Borders Team will send notification to **NCH** to **FINALISE the ORIGINAL ENTRY**
13. The **NCH** will advise the OPSS Borders Team via email when the original entry has been finalised.

DESTIN8 – PART LOAD RELEASE AND PART LOAD DESTRUCTION

1. **Trading Standards (TS)** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox. The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date).
 - c. Confirmation of Full or Partial refusal.
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **NCH** asking for the UCN to be reset.
3. The **National Clearance Hub (NCH)** will reset UCN.
4. The **NCH** will advise the OPSS Borders Team via email OPSS Borders Team Mailbox when the UCN has been reset.
5. The OPSS Borders Team will advise **TS** that the UCN has been reset by the NCH.
6. **TS** will instruct the Shipper/Agent to create split records on DESTIN8.
In simplest terms, one record for REFUSED goods, ONE for ACCEPTABLE goods.
7. **TS** will instruct the Shipper/Agent to complete a RRO (Removal Request Other) for the **REFUSED goods**, using the appropriate split record UCN.
8. TS will instruct the Shipper/Agent to complete a **NEW ENTRY for the ACCEPTABLE goods**, using the appropriate split record UCN, applicable values, packages etc.
*NB: If the entry for the **ACCEPTABLE goods** is subject to **Route, 1, 2 or 3** checks following acceptance on CHIEF, this should be sent emailed by the trader to the **NCH/OPSS Borders Team** as per normal entry clearance procedures.*
9. TS will also instruct the Shipper/Agent to amend the ORIGINAL CHIEF entry to show the **REFUSED goods** only on this entry.
10. TS will instruct Shipper/Agent to email opss.borders@beis.gov.uk that the RRO has been requested and copy in TS as well.
11. The OPSS Borders Team will email the details of the RRO to **NCH**.
12. When the RRO is received, the **NCH** will action the request.
13. The **NCH** will advise the OPSS Borders Team via email that the RRO has been approved.
14. The OPSS Borders Team will advise **TS** that the RRO has been approved.
15. When the destruction of the goods has been completed, **TS** will notify the OPSS Borders Team.
16. The OPSS Borders Team will send notification to the **NCH** to **FINALISE the ORIGINAL ENTRY**

17. The **NCH** will advise the OPSS Borders Team via email when the original entry has been finalised.

DESTIN8 – FULL LOAD RE-EXPORT

1. **Trading Standards** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox. The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date)
 - c. Confirmation of Full refusal & confirmation of re-exportation agreement.
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **NCH** asking for the UCN to be reset.
3. The **National Clearance Hub (NCH)** Shed teams will reset UCN.
4. The **NCH** will advise the OPSS Borders Team via the email OPSS Borders Team Mailbox that the UCN has been reset.
5. The OPSS Borders Team will advise **TS** Mailbox that the UCN has been reset.
6. **TS** will instruct the trader as follows:
 - Consignments must be split to 12 digit level with the intended export container number showing in the 'Marks & Numbers' field.
 - The Nominated Agent should then input the Removal Request (RROs) against the relevant 12 digit splits using Removal Code 1 and the Destination Code for the local port where the goods are (e.g. FXT).
 - The Nominated Agent should then input a DEVAN request using transaction DEV.
 - The exporting shipping line is to create an export booking showing "ex (relevant import container)" in the 'Description' field, input 06 in the 'ETC' field and then generate an Export Clearance List (XCL) selecting the Sundry Documents box.
7. Trader will e-mail OPSS Borders Team (opss.borders@beis.gov.uk) with the details of the RRO and the Export Clearance list and copy in TS.
8. The OPSS Borders Team will then notify **NCH** at with details of the RRO and Export Clearance list.
9. The **NCH** will advise the OPSS Borders Team via email that the RRO and XCL have been approved.
10. The OPSS Borders Team will advise **TS** that the R.R.O. and XCL have been approved.

11. When the RE-EXPORTATION of the goods has been completed, **TS** will notify the OPSS Borders Team.
12. The OPSS Borders Team will send notification to ask the **NCH** to **FINALISE the ORIGINAL ENTRY**
13. The **NCH** will advise the OPSS Borders Team via email when the original entry has been finalised.

DESTIN8 – PART LOAD RELEASE AND PART LOAD RE-EXPORT

1. **Trading Standards** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox. The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date)
 - c. Confirmation of Full or Partial refusal
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **NCH** asking for the UCN to be reset.
3. The **National Clearance Hub (NCH)** will reset UCN
4. The **NCH** will advise the OPSS Borders Team via email OPSS Borders Team Mailbox when the UCN has been reset.
5. The OPSS Borders Team will advise **TS** that the UCN has been reset by the **NCH**.
6. **TS** will instruct the Shipper/Agent to create split records on DESTIN8.
*In simplest terms, one record for **REFUSED goods** that are being re-exported and ONE for **ACCEPTABLE goods**.*
7. **TS** will instruct the Shipper/Agent to complete a **NEW ENTRY for the ACCEPTABLE goods**, using the appropriate split record UCN, applicable values, packages etc.
*NB: If the entry for the **ACCEPTABLE goods** is subject to **Route, 1, 2 or 3** checks following acceptance on CHIEF, this should be sent emailed by the trader to the **NCH/OPSS** Borders Team as per normal entry clearance procedures.*
8. **TS** will also instruct the Shipper/Agent to amend the ORIGINAL CHIEF entry to show the **REFUSED** goods only on this entry.
9. In relation to the refused goods that are permitted re-exportation - **TS** will instruct the trader as follows:
 - Consignments must be split to 12 digit level with the intended export container number showing in the "Marks & Numbers" field.

- The Nominated Agent should then input the Removal Request (RROs) against the relevant 12 digit splits using Removal Code 1 and the Destination Code for the local port where the goods are (e.g. FXT).
 - The Nominated Agent should then input a DEVAN request using transaction DEV.
 - The exporting shipping line is to create an export booking showing "ex (relevant import container)" in the "Description" field, input 06 in the 'ETC' field and then generate an Export Clearance List (XCL) selecting the Sundry Documents box.
10. Trader will e-mail OPSS Borders Team (opss.borders@beis.gov.uk) with the details of the RRO and the Export Clearance list and copy in TS.
 11. The OPSS Borders Team will then notify **NCH** at with details of the RRO and Export Clearance list
 11. The **NCH** will advise the OPSS Borders Team via email that the RRO and XCL have been approved.
 12. The OPSS Borders Team will advise **TS** that the RRO and XCL have been approved.
 13. When the **RE-EXPORTATION** of the refused goods has been completed, **TS** will notify the OPSS Borders Team.
 14. The OPSS Borders Team will send notification to **NCH** to **FINALISE the ORIGINAL ENTRY**
 15. The **NCH** will advise the OPSS Borders Team via email OPSS Borders Team Mailbox when the original entry has been finalised.

PORT INVENTORY – CNS COMPASS

- A. **FULL LOAD DESTRUCTION**
- B. **PART LOAD RELEASE AND PART LOAD DESTRUCTION**
- C. **FULL LOAD RE-EXPORT**
- D. **PART LOAD RELEASE AND PART LOAD RE-EXPORT**
- E. **PART LOAD RELEASE AND PART LOAD RE-EXPORT FOR GOODS AT – ETSF**

CNS COMPASS - FULL LOAD DESTRUCTION

1. **Trading Standards (TS)** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox .The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date)
 - c. Confirmation of Full or Partial refusal
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **National Clearance Hub (NCH)** asking for the UCN to be reset.
3. On receipt of OPSS Borders Team instruction, the **NCH** will approve an Inventory record reset request and send approval via an email to CNS.
4. The **NCH** will advise the OPSS Borders Team via email that the UCN has been reset.
5. The OPSS Borders Team will advise **TS** that the UCN has been reset by CNS.
6. **TS** will instruct the OPSS Borders Team to request release of the refused goods for destruction purposes.
7. The OPSS Borders Team will send notification to the **NCH** to request that the NCH electronically gate pass the refused goods on CNS.
8. When the **NCH** receive instruction from the OPSS Borders Team, they will update the CNS Inventory system to generate an electronic gate pass for the REFUSED GOODS.
9. When the **NCH** has updated CNS to generate a gate pass for the refused goods, they will advise the OPSS Borders Team via the OPSS Borders Team Mailbox.
10. The OPSS Borders Team will advise **TS** that the goods have been issued with a gate pass.
11. Following the above action - when **TS** remove their hold on the inventory system - a Gate pass will be issued, and the goods can be removed for destruction purposes only.
12. When the destruction of the goods has been completed, **TS** will notify the OPSS Borders Team.
13. The OPSS Borders Team will send notification to the **NCH** to **FINALISE the ORIGINAL ENTRY**
14. The **NCH** will advise the OPSS Borders Team via email when the original entry has been finalised.

CNS COMPASS - PART LOAD RELEASE AND PART LOAD DESTRUCTION

1. **Trading Standards (TS)** will notify the OPSS Borders Team following refusal of goods via the OPSS Borders Team Mailbox. The following details will be provided:
 - a. UCN
 - b. Entry details (EPU/Entry number/Entry date)
 - c. Confirmation of Full or Partial refusal
 - d. Location/Inventory system.
2. The OPSS Borders Team will send notification to **NCH** asking for the UCN to be reset.
3. On receipt of OPSS Borders Team instruction, the **NCH** will approve an Inventory record reset request and send an email to CNS.
4. The **NCH** will advise the OPSS Borders Team via email that the UCN has been reset.
5. The OPSS Borders Team will advise **TS** that the UCN has been reset by the NCH.
6. **TS** will instruct the Shipper/Agent to complete a NEW ENTRY for the ACCEPTABLE goods, using the appropriate split record UCN, applicable values, packages etc.
7. TS will also instruct the Shipper/Agent to amend the ORIGINAL CHIEF entry to show the **REFUSED** goods only on this entry.
8. **TS** will instruct the OPSS Borders Team to request release of the refused goods for destruction purposes.
9. The OPSS Borders Team will send notification to **NCH** to request that the NCH electronically gate pass the refused goods on CNS.
10. When the **NCH** has updated CNS to generate a gate pass for the refused goods, they will advise the OPSS Borders Team via the OPSS Borders Team Mailbox.
11. Following the above action - when **TS** remove their hold on the inventory system - a Gate pass will be issued, and the goods can be removed for destruction purposes only.
